To whom it may concern

RE : LETTER OF RECOMMENDATION FOR ROMI BIRSAN AND RVB CONSTRUCTIONS.

To whom it may concern.

This letter is to recommend Romi Birsan and his team working at RVB Constructions.

Romi and RVD did an excellent job extending our kitchen / dining area as well as installing a new kitchen. This work included significant structural alterations, laying concrete, sub-floor work, plus installing radiators, electrical work, ceiling replacement, plastering and door hanging.

Throughout the job, the work was done in a professional and thoughtful way. The team were friendly, polite and worked extremely hard, even at weekends, and always minimised disruption to our family, which includes young children, by keeping the sight clean and safe.

Romi and RVB were very versatile covering all disciplines of general building, plumbing, electricians, flooring, kitchens and more. They came up with any intelligent solutions and suggestions throughout the project which overall made it more successful. In addition, and importantly, Romi and RVB also stuck the quotation price and delivered the work on time.

Overall, we cannot express enough how happy we were having Romi and RVB working on our project. They are a first rate team and I highly recommend them.

Kind regards,

Mr & Mrs Sweeney
